BIO

Honest and Authentic: Two words to describe Jeremiah Coyne. A Recording Artist from Berlin, MD whose mission is to help people understand that they're not alone. He calls on his life experiences and lessons learned when creating and merges this with sonics reminiscent of Imagine Dragons, Bon Iver, and Hozier. Writing music from the heart bridging the gap between hope and reality by letting the world know they are not alone in the way they feel. Pouring his soul into his music providing a comforting perspective to help the world keep faith alive. Jeremiah has been traveling the world and playing music for 20+ years often accompanied by his wife, Brooke, an acclaimed classically trained concert Violinist.
